

FOOT CONTROLLER RD-J02

Product Specification

FOOT CONTROLLER RD-J02

- RD-J02 is mainly used in medical and cosmetic fields. The foot switch adopts modular design with elegant appearance and compact structure. Up to five rows of combinations can be designed. The single row foot switch can control single or multiple push rods, and provides the highest IPX6 protection level, which is suitable for Runda conventional controllers.

Product characteristics

- Supporting controller: RD-E398, RD-B398 and other conventional controllers
- Protection grade: IPX6
- Color: black+white jade grey
- Weight: 1 row: 0.3kg
- Number of keys: single row key combination can be designed
- Operation: single acting
- Connecting wire: 3m spring wire
- Travel switch ensures long life
- The surface is easy to clean
- Meet the standard of General Technical Conditions for Medical Foot Switches YY1057-2016

USE

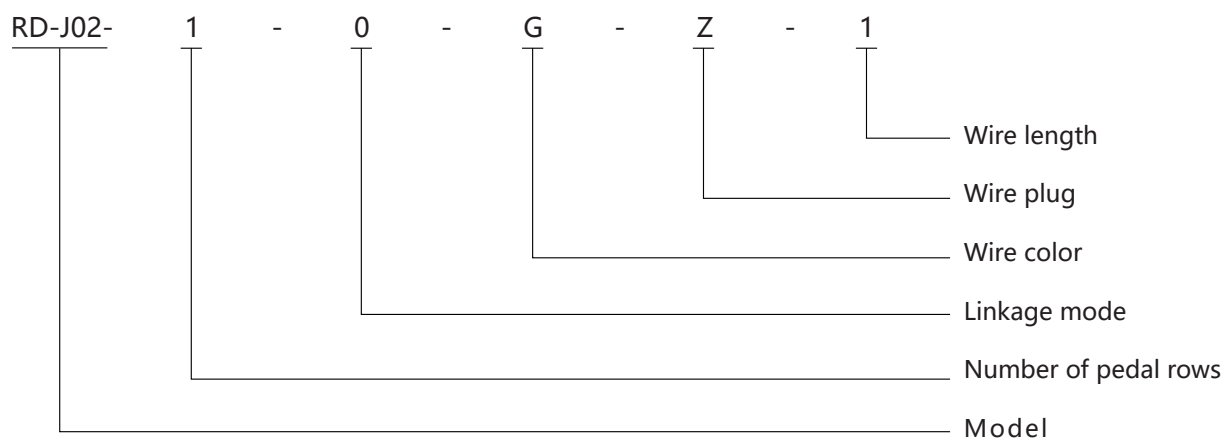

- Operating temperature: +5 °C to +40 °C
- Storage temperature: - 10 °C to +50 °C
- Relative humidity: 20% to 80% - non condensing
- Atmospheric pressure: 860 to 1060 hPa
- Altitude: up to 2000m
- Certification: EMC: IEC60601-1-2

Naming Rules

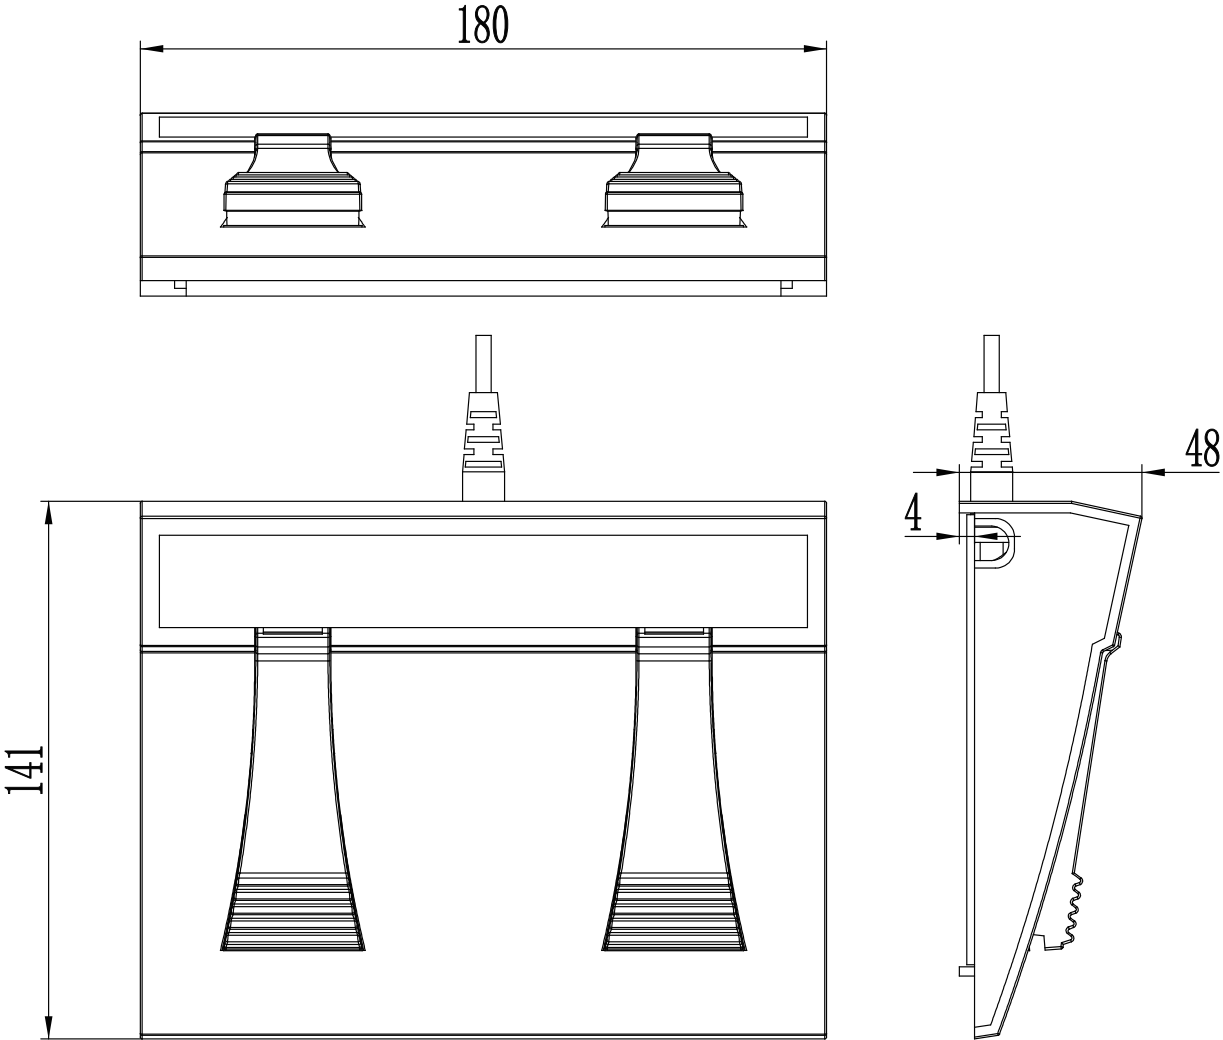

Model	J02	
Number of pedal rows (matched with controller)		1=1row
Linkage mode		0=Push rods work independently
Wire color		G=Grey B=Black
Wire plug		Z=Straight insertion W=Bending insertion
Wire length		1=natural length: 1.5m (stretching length: 4.5m) D=Customized for special requirements

RD-J02- 1 - 0 - G - Z - 1
